

February 2, 2017

To whom it may concern:

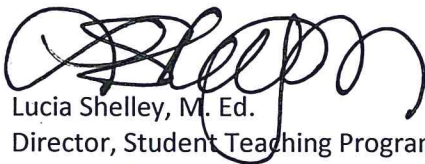

This recommendation letter is on behalf of Miss Mandi Nelson. Miss Nelson is a Special Education and Elementary Education double major student at the University of Mary in Bismarck, North Dakota. During the last few years I have had Mandi as my student in different courses. The methods courses she took with me included a performance assessment, therefore I am a witness of Miss Nelson's great teaching skills. During this time, Mandi has displayed professionalism and a desire to excel in all she does. I also can mention that Mandi is a detailed, organized person.

Mandi has consistently shown interest in investing in the youth: Mandi worked in the MREC Extended School Program at Fort Lincoln Elementary School in the summer 2015, she also was the Assistant Site Coordinator at Dorothy Moses, from August 2015 to December 2016. In addition to her teaching experience and love for teaching Mandi worked at the BLAST at Solheim Elementary School in 2014, and participated as an AVID Tutor at Wachter Middle School in 2015. In her free time, among many other things, Mandi enjoys volunteering, for example at the Ronald McDonald House.

Miss Nelson is a natural, kind leader: She is one of the University of Mary - Emerging Leaders Academy Graduates. In this selective group she has polished her leadership skills while pouring her heart in the community in many ways. Her heart of service is visible: Mandi has attended national and local events representing the North Dakota Student Association, UMary chapter as the current President.

Her passion for teaching has been visible at all times, as well as her desire to spend time with children at all grade levels. For all these reasons I highly recommend Mandi Nelson for any of the teaching position(s) at your school district she is applying for. Please contact me so that we can further discuss Miss Nelson's qualifications. Thank you for your time.

Sincerely,

Lucia Shelley, M. Ed.  
Director, Student Teaching Program  
Assistant Professor  
University of Mary –Department of Education
